SUSTAINABLE MANAGEMENT SYSTEM

We believe that tourism and sustainable practices can coexist with luxury and guest comfort. By embracing our sustainability philosophy, we aim to provide our guests with an unforgettable and environmentally responsible experience while actively contributing to the preservation of our planet. In line with our sustainability values, we are committed to promoting environmentally friendly practices and fostering a philosophy of environmental responsibility. We believe that sustainability is not just a trend ; it is a fundamental principle that guides our operations and guest experience.

by reducing emissions, increasing the use of renewable energy, and offsetting remaining emissions . Sustainability is central to our vision and values. We believe that hospitality can coexist harmoniously with the well-being of our planet and our communities. We are constantly working to improve our energy efficiency, renewable energy use, water conservation, waste minimization, and sustainable sourcing.

The foundation of our sustainable management system is based on risk analysis. Risk analyses are conducted under the following headings: environment, natural disasters, society, culture, economy, quality, human rights, health, and security. New headings can be added as needed.

We also have a crisis management plan system that identifies actions to be taken if risks occur after analyzing them. The annex to this document provides information on how to conduct risk analysis and crisis management.

SYS includes the implementation of certain policies by all employees on quality, economy, management, environment, culture, human rights, health and safety, the setting of targets and the continuous improvement of business management processes by monitoring whether the targets are achieved.

If the established goals are met, new goals are set. If they are not met, our goals, policies, and practices are reviewed. In this way, we strive to ensure continuous improvement.

The goals of our hotel's management system and the performance indicators that monitor compliance with the goals are included in the annex of this document.

Our hotel is committed to fulfilling its obligations under the Türkiye Sustainable Tourism Program regarding sustainability and to continuously improve its sustainable management system to increase its sustainability performance.

Our management system is constantly reviewed due to the status of the sector, environmental, social, technological, economic and cultural risks, and changes and updates arising from legislation, and the system and policies are updated if necessary.

The steps mentioned above can be summarized as the Plan-Do-Check-Act (PDCA) approach.

Our hotel is committed to providing accessible tourism services for everyone within its means and informs its customers and stakeholders clearly and accurately about the level of accessibility through its website.

Our hotel is committed to fully complying with accessibility regulations and continuously improving them. We strive to make continuous improvements not only for guests with physical disabilities but also for those unable to participate in tourism activities due to disabilities such as vision or hearing impairments.

Our hotel regularly maintains and repairs its accessibility measures and infrastructure, making improvements as needed. We also regularly update our employees on accessibility issues.

Our facility has accessibility practices at the facility entrance, elevators and breakfast room.

There are no disabled rooms in our facility.

GOODS RECEIPT AND PURCHASING PRACTICES

Our purchasing policy includes policies aimed at local, environmentally friendly, fair trade and efficient purchasing.

Our hotel monitors our sources of goods and services. We meet with our suppliers regularly. We review their sustainability-related certificates, information, and documentation.

Local sourcing: Our hotel prioritizes local suppliers when purchasing goods and services, ensuring they are of high quality and reasonably priced. Therefore, we regularly audit our suppliers, update our supplier list, and keep them informed. The proportion of goods and services purchased from local communities is measured.

When purchasing goods and services, our hotel also gives priority to fair trade suppliers, provided that imported products are of good quality and reasonably priced.

Environmentally friendly purchasing : Our hotel follows an environmentally friendly purchasing policy, attaching importance to efficient purchasing, energy saving and water saving to reduce food and solid waste.

Our hotel prioritizes environmentally friendly products (e.g., products with environmental labels) in its purchases. If the product group we're purchasing doesn't already have environmentally friendly labels, we select our products from suppliers and manufacturers whose production and other processes don't harm the environment.

In this context, our hotel prioritizes selecting suppliers with sustainability certifications when making its purchases. Examples of certifications to look for in suppliers include **ISO14001, ISO50001, ISO14064, and ISO20400** .

For wood, fish, paper and other foods, environmentally certified (FSC, MSC, EU-EcoLabel, etc.) or traceable products are preferred.

Endangered species and species prohibited for sale (fish, trees, plants, game, etc.) are not purchased or used in our hotel.

The ratio of our purchases from environmentally certified, local producers and suppliers, and fair trade suppliers to total purchases is measured.

Our hotel has goals related to environmentally certified, local, and fair trade purchasing. In this context, we aim to increase the proportion and number of local and fair trade suppliers in our purchasing decisions, and we are committed to doing so.

Efficient purchasing : Our purchasing policy favors reusable, returnable and recycled goods.

Our hotel also prioritizes bulk and bulk purchasing. This means fewer shipments to our hotel and less greenhouse gas emissions .

unnecessary and excessive plastic, nylon, paper , glass and wooden packaging in the products arriving at our hotel.

ENVIRONMENT AND NATURE PROTECTION ACTIVITIES

Our primary goal is to prevent environmental pollution and protect nature by conserving our resources as efficiently as possible, and to reduce, recycle, or neutralize our waste. We are aware of our environmental impact and strive to take the necessary precautions and actions.

We undertake to be an environmentally friendly institution with a sense of social responsibility by ensuring pollution prevention and sustainability in the realization and presentation of our products and services in accordance with international and national legal conditions and regulations as well as internal and external customer conditions in our business.

While fulfilling this commitment;

- We determine our impact on the environment and keep it under control.
- We are prepared for risks related to pollution in emergency situations (fire, explosion, flood, earthquake, leakage, etc.) and comply with legal regulations.
- We strive to minimise our waste, prevent pollution at its source, use energy efficiently and reduce the environmental impact of our activities.
- We are constantly improving our environmental performance in waste separation, waste reduction and efficient use of natural resources.
- We monitor waste during recycling and disposal stages.
- We train our employees about chemical use, environmental impacts and waste.
- We encourage our employees and guests to be sensitive to the environment and develop them by providing training on environmental awareness and efficient use of energy.
- As a team, we try to raise awareness in the community by cleaning the streets around the hotel at regular intervals.
- We use energy and water saving systems in our hotel.
- We raise awareness and encourage our suppliers and stakeholders about energy efficiency efforts.
- We donate trees to environmental organizations and organizations to minimize the damage caused by carbon emissions to nature.

ENERGY MANAGEMENT

Energy Savings : Our hotel has an energy saving policy. This policy includes regularly measuring, monitoring, and reducing energy consumption.

Our hotel groups its energy consumption according to energy type, and the energy consumption of different units is monitored.

The total energy used in our hotel is measured by type.

Our hotel identifies activities with high energy consumption and plans and implements corrective measures to reduce energy consumption in these areas and activities (thermal insulation systems, choosing low-consumption appliances from energy-rated appliances, using LED bulbs instead of high-energy-consuming lighting like incandescent bulbs, etc.). Our hotel also uses energy-efficient equipment .

Our hotel informs and trains its employees and stakeholders about energy saving.

PURCHASING POLICY

Our purchasing policy embraces local, environmentally conscious, fair-trade, and efficient purchasing practices. Our hotel monitors the sourcing of our goods and services.

We meet with our suppliers periodically to review their sustainability-related certifications, information, and documentation.

Local purchasing: Our hotel prioritizes local suppliers when purchasing goods and services, providing they are of high quality and reasonably priced. Therefore, we regularly audit our suppliers, update our supplier list, and keep our suppliers informed.

The proportion of goods and services received from the local population is measured.

When purchasing goods and services, our hotel also gives priority to fair trade suppliers, provided that imported products are of good quality and reasonably priced.

Environmentally friendly purchasing : Our hotel follows an environmentally friendly purchasing policy, placing emphasis on efficient purchasing, energy saving and water saving to reduce food and solid waste. Our hotel prioritizes environmentally friendly products (e.g., products with environmental labels) in its purchases. If the product group we're purchasing doesn't already have environmentally friendly labels, we select our products from suppliers and manufacturers whose production and other processes don't harm the environment.

In this context, our hotel prioritizes selecting suppliers with sustainability certifications when making its purchases. Examples of certifications to look for in suppliers include ISO14001, ISO50001, ISO14064, and ISO20400. For wood, fish, paper, and other food products, we prefer products with environmental certifications (FSC, MSC, EU-EcoLabel, etc.) or traceable origins.

Endangered species and species prohibited for sale (fish, trees, plants, game, etc.) are not purchased or used in our hotel.

The ratio of our purchases from environmentally certified, local producers and suppliers, and fair trade suppliers to total purchases is measured.

Our hotel has goals related to environmentally certified, local, and fair trade purchasing. In this context, we aim to increase the proportion and number of local and fair trade suppliers in our purchasing decisions, and we are committed to this goal.

Efficient purchasing : Our purchasing policy prioritizes reusable, returnable, and recycled goods. Our hotel also prioritizes bulk and bulk purchasing. This reduces the number of shipments to our hotel, resulting in fewer greenhouse gas emissions . It is our primary priority and preference to eliminate unnecessary and excessive plastic, nylon, paper , glass, and wood packaging in products arriving at our hotel. When purchasing consumables and amenities, we avoid single-use items and unnecessary waste. packaging (especially plastic) is avoided. The purchase and use of consumables and single-use items are monitored and managed.
